

## GREAT AERIAL TRANS-CONTINENTAL RACE STARTED TODAY

### Seventy-one Planes Started to Race From New York to San Francisco and Return

#### Fifty-one Planes Started in the East and Balance from San Francisco

#### Seventy-one Planes Started to Race from New York to San Francisco and Return

New York, Oct. 8.—(By U. P.)—The greatest aerial race in history began at 9:10 A. M. when seventy-one airplanes started to take on a trans continental flight between New York and San Francisco.

Fifty-five of the machines were scheduled to leave Mineola and the remaining were to start from San Francisco. The race across and back—more than 5,400 miles—was expected to consume twelve days. There will be no night flying.

Lieut. J. B. Macfie in number 17, a DeHaviland, cut away at exactly 9:10:30. Two minutes later Brig. Gen. Charlton, a British attaché took the aid in a number 9 Bristol.

#### Other Machines Start

Following Macfie other machines cut away in this order at about two minute intervals. Numbers 11, 15, 29, 37, 47, 35, 23, 27, 31 and 9. Number 9 was delayed by motor trouble. Number 35 was forced to return twenty minutes later because of engine trouble. Benedict Crowell, 1st assistant secretary of the navy, started the machines in place of Major Gen. Barry.

#### Planes Also Leave Frisco

San Francisco, Oct. 8.—The first air plane from the Pacific coast in the trans continental air race left the ground at Presidio at 6:59 this morning. The plane is a DeHaviland and is driven by Lieut. Reichert with Lieut. Patrick as observer. Fourteen others followed at two minute intervals.

#### Planes Going West Arrive at Binghamton

Binghamton, N. Y.—Plane No. 29 was the first to arrive in Binghamton from Mineola, reaching the control station at 10:45:48. No. 11 arrived at 10:46. No. 31 at 10:48.

#### Planes Arrive at Sacramento

Sacramento, Calif., Oct. 8.—Airplane No. 65 arrived here from Presidio at 7:35 and left at 7:56. No. 62 arrived at 7:40 and left at 8. No. 58 arrived at 7:44 and left at 8:10.

#### Plane Falls With Assistant Secretary of War Crowell

Mineola, N. Y., Oct. 8.—Benedict Crowell, assistant secretary of war, narrowly escaped injury this afternoon when the plane in which he was flying fell fifty feet to the ground and overturned. Both Crowell and his pilot, Capt. Cleary were under the machine but escaped with a severe shaking up.

The accident occurred when Cleary tried to avoid a hangar. Crowell announced his intention of going up again in another machine at once.

#### Reno, Nev., Oct. 7.—Five air planes in the trans-continental race arrived here completing the second lap of the trip from San Francisco to New York. The first two arrived at 9:10 a. m.

#### Two Arrive at Buffalo

Curtiss Field, Buffalo, Oct. 8.—Lieut. Maynard, winner of the recent air derby from New York to Toronto and Col. Hartney, in a German plane were the first two to arrive here in the trans-continental air derby. They arrived shortly after 2 o'clock.

#### Two at Rochester

Rochester, N. Y., Oct. 8.—Airplane No. 11 in the trans-continental air race left here for Buffalo, at 12:50, after one half hour's rest. No. 31 left at the same time.

#### No. 4 Meets Accident

Binghamton, N. Y., Oct. 8.—Col.

Gerald Brandt, driving air plane No. 4, from Mineola crashed to the ground one mile north of Deposit this morning. Col. Brandt was slightly injured. Sergt. Newitt, his passenger, was injured and later died of his injuries. The plane was wrecked.

#### Three Forced Down at Wilkes Barre

Wilkes Barre, Pa.—Three planes entered in the trans-continental air derby were forced to land near here. One was piloted by Lieut. Taylor, who said he had lost his bearing. After receiving information he took to the air and started for Binghamton. The other two planes were still in the fields near Sugar Notch.

#### Senate Agree to Conference Report on Prohibition Bill

(By United Press)  
Washington, Oct. 8.—Without debate or an opposition vote the senate today agreed to the conference report on the prohibition enforcement bill.

#### German Troops Withdraw From Baltic

(By United Press)  
Berlin, Oct. 7.—Germany has begun to withdraw her troops from the Baltic. It was reported today. All of them have agreed to return to Germany it was stated, except all of the Iron Division.

#### Italian King Ratifies Treaty by Decree

(By United Press)  
Rome, Oct. 8.—King Emanuel has ratified the German-Austrian peace treaty by the issuance of a royal decree. It was announced officially today.

#### American Corporal Flogged in Siberia

Corporal Benjamin Sperling  
Official apologies have been made for the flogging of Corporal Benjamin Sperling of Brooklyn by Cossacks in Russia. He is a member of the Thirty-first Infantry, serving in Siberia.

HENRY M. ROBINSON

Henry M. Robinson is the Pacific coast representative on the United States shipping board. His home is in Pasadena, Cal. As special commissioner for the board in Paris during the peace negotiations he earned most of the credit for securing for the United States the German shipping which this country had interned.

#### Military Rule Now at Gary

#### Regular Soldiers Now Watching to See That There are no Disturbances

(By United Press)  
Gary, Ind., Oct. 8.—The silk hat of officialdom was supplanted by the tin helmet of Mars here today.

Gary, the "model city" was under military control. Regular soldiers were watching to see that no disturbances arise from the steel strike. It was a kindly military rule. Col. Mapes, commander, made his quarters in the office of Mayor Hodgson.

Army intelligence officers have seized nearly a ton of radical literature in various red centers. Major General Leonard Wood declared the outbreak had been caused by red agitators "whose only desire seemed to be to foment riot. The department of justice agents cooperating with army officials took three alleged bolshevik leaders into custody.

#### Shantung Question Before the Senate

(By United Press)  
Washington, Oct. 8.—The senate today set before it the provision of the peace treaty whereby Japan obtains the German concessions in Shantung.

#### Larger Fortunes Fewer, Income Returns Show

#### Increase Reported in 1917 Revenues Up to \$130,000 Annually—Majority Making Returns Get Over \$2,000

Washington, Oct. 7.—Despite the popular belief that the number of large fortunes has increased during the last few years, income statistics made public today by bureau of internal revenue showed a considerable decrease for 1917 in those reporting net incomes of less than \$150,000.

The figures were considered even more surprising regarding incomes of \$1,000,000 or over. There was a decrease of 65 in such incomes, 206 being reported in 1916 and only 141 in 1917.

A total of 3,472,890 personal income tax returns were filed in 1917. The net income reported amounted to \$13,552,383,207, an increase of 3,035,854 in the number of returns and of \$7,353,895,587 in net income over the preceding year. The large increase is attributed to the lower exemption of the act of Oct. 3, 1917, and partly to the general rise in the scale of compensation.

Of the total number of personal returns filed 47 per cent reported net incomes of from \$1,000 to \$2,000, and 53 per cent of the total reported net incomes in excess of \$2,000. There were 315 returns showing net incomes of from \$500,000 to \$1,000,000, and 141 returns showing incomes of \$1,000,000 and over.

#### President Wilson is Much Improved

#### His Appetite is Much Better—Is Anxious to Get Out of Bed and Work

Washington, Oct. 8.—President Wilson was much improved this morning according to information from unofficial sources at the White House. His appetite was much better and was very anxious to get out of bed.

#### President Continues to Improve

Washington, Oct. 8.—"The President continues to improve slowly," said a statement issued by his physicians at noon today. "He is stronger than at any time since his illness began," the statement said.

#### Spring Wheat Forecast

(By United Press)  
Washington, Oct. 8.—The spring wheat crop forecast is 203,176,000 bushel by the crop estimate bureau of the department of agriculture, after comparing with the harvest of 358,651,000 bushel in 1919. This indicates a decrease of 4,879,000 bushels since the forecast of September 1.

#### SENATE ACTS TO MAKE AUTO THEFT U. S. CRIME

Washington, Oct. 7.—The Senate yesterday passed and sent to conference a bill providing fines of \$5,000 and five years imprisonment for persons convicted of transporting stolen motor vehicles from one state to another.

#### MINNESOTA LEADS ALL OTHER STATES IN ITS NET ASSETS

Minnesota possesses more net assets—state cash, lands, buildings and other properties—than any other state in the union, H. E. Samuelson, executive clerk to Governor Burnquist, quoting from a late government census volume on financial statistics of state, declared yesterday.

Minnesota is credited with assets of \$128,894,421 and debts of only \$2,018,501. It is led in totals of assets by New York, with \$239,397,545 but that state has \$241,164,236 of outstanding indebtedness, according to the census bureau. In second place is Washington with assets of \$123,693,966 and a state debt of \$3,417,633.

CAPT. LEONARD J. MATLACK

Capt. Leonard J. Matlack, who carried into Mexico the money to ransom the captured American army aviators and then helped in the pursuit of the bandits, has been very active in previous operations against Mexican raiders and has been cited for his excellent service on the border.

#### KING ALBERT AT THROTTLE GUIDES SPECIAL TRAIN

#### Few People Recognize the Belgian Ruler in Flannel War Shirt

Chicago, Oct. 7.—Handling the throttle of the locomotive of his special royal train was a diversion for King Albert of the Belgians today as he sped across Ohio, Indiana and a corner of Illinois, passing around the main part of Chicago tonight. The King, Queen Elizabeth and the duke of Brabant were traveling unofficially on the way to the Pacific coast.

Much of the time Albert wore a flannel army shirt and a cap and few of the townsfolk recognized him as his train stopped or slowed at stations along the route at many of which school children cheering or bringing flowers, were on hand to greet the royal party.

At Wausau, Ohio, he took the throttle of the grimy pilot who stood close by for an emergency, but his majesty needed no assistance for he has a thorough knowledge of engineering. He ran the heavy train without a jolt for 16 miles and then returned to his car to "wash up" for dinner.

At Toledo the royal party was driven from the station to the museum of arts where there was an address of welcome by Mayor Cornell Schreiber, a brief talk by Albert and a few words of greeting to his towns.

## WORLD'S SERIES BASEBALL GAMES

#### Chicago Wins Again Today

By innings:- 1 2 3 4 5 6 7 8 9 10 11--R H E  
Chicago . . 1 0 1 0 2 0 0 0 0 —4 10 1  
Cincinnati 0 0 0 0 0 1 0 0 0 —1 7 4

Batteries—Cicotte and Schalk; Salle, Fisher, Luque and Wingo.

Fisher replaced Salle in the fifth and pitched one inning.

Luque started pitching for Cincinnati in the sixth inning.

Cincinnati, Oct. 8.—The White Sox and Reds who are to meet today in the seventh game of the world series were greeted this morning by bright skies and cool breezes. Indications were for a nearly perfect baseball day.

#### Baseball Expert Who Backed the Reds

By JOHN EVERS  
(United Press Staff Correspondent.)  
Cincinnati, October 8.—The world series should end with the seventh game this afternoon. The Reds will be the new champions of the world.

Slim Sallee most likely will be the selection of Moran and he will be opposed by E. Cicotte. Sallee won the first game against the White Sox and he believes he can win again by pitching the same kind of a game. On the other hand Cicotte will have nothing new to show the Reds. They have beaten him two times and are looking to see him go down a loser. Yesterday's pitching was bum. Kerr got through his two victories by the skin of his teeth. I looked for him to have trouble as the Reds had no line on his wares in his first start but being a smart ball club learned more of the strong points. Walter Ruether on the other hand was away off form. The long rest between games did him no good. He had won particularly nothing and the attack of the Sox made a move on him when he was slipping, to win the game.

Chicago had all the breaks of yesterday's game. The Red's defense went up in the air several times.

## CONFERENCE HOLDS 30 MINUTE SESSION THEN ADJOURNS

### Farmers Issue Statement That They Have Been Discriminated Against

men by Brand Whitlock, ambassador to Belgium.

#### King Interested in Iowa Cornfield

Aboard the King's special train, Omaha, Neb., Oct. 8.—"While entering the great agricultural fields of this country, the Queen and I, as well as Belgium will remember that it was from the wheat belt that the first offer of food stuffs to stricken Belgium came," the King said.

Upon arriving the King made several inquiries into conditions here and expressed a desire to see the livestock market and other industries of the city. Both the King and Prince stood on the platform of the observation car while passing through Iowa. They were impressed with the immense corn fields.

Last night the Prince had a long longing for desire filled—that of seeing the Mississippi river. They crossed it at Savannah, Ill., about midnight but the Prince was up, and for his special benefit a huge flash light was thrown on the river.

They are due to arrive in Cheyenne, Wyo., tonight and Ogden, Utah at 3:30 tomorrow.

#### Belgium Delegation Ask for More Time

(By United Press)  
Paris, Oct. 8.—The Belgium peace delegation today asked for ten days extension of time to make their reply to the treaty recently presented to them by the allies.

#### Rebellion Against Bolshevik Reported in Russia

Copenhagen, Oct. 8.—Dispatches received here today from Helsingfors says wireless advices have been received in Courtland telling of a serious rebellion against the bolshevik starting in Moscow by revolutionists. Lenin is reported to have ordered the imprisonment of Trotsky but Lenin was arrested instead.

Whether the question of closed shops will be presented is regarded as uncertain. The labor group proposed also a demand for the recognition by all employers of unions seeking to negotiate with the employer.

Organized labor in the conference finished framing its program. It was approved by the group of labor delegates. Samuel Gompers, chairman of the group, is under orders to present any demand to the conference, he deems fit. One or more of the demands may be presented tomorrow. Labor delegates referred to their program as conservative, which introduced only those principles for which organized labor has hoped for years. Profit sharing and a forty-four hour week was not introduced, it was explained.

Whether the question of closed shops will be presented is regarded as uncertain. The labor group proposed also a demand for the recognition by all employers of unions seeking to negotiate with the employer.

#### Steps Being Taken to Nominate Gen. Wood for President

(By United Press)  
Chicago, Oct. 8.—Definite steps to bring out Major General Leonard Wood as a candidate for the nomination by republicans for President were expected to be taken today.

John King, republican committee man from Connecticut arrived here today to meet other friends of Wood from the west.

#### Propositions Cannot be Presented to the Conference by Individuals

RALPH COUCH  
(United Press Staff Correspondent)

Washington, Oct. 8.—The industrial conference as it met today found that there was no business before it and adjourned until tomorrow after a thirty minutes session. During the adjournment the three groups representing capital, labor and the public will convene separately to prepare propositions for introduction tomorrow morning.

Under the rule individual delegates may not present resolutions without acceptance of the groups. Thos. L. Chadbourne, chairman of the central committee, is preparing to propose a long adjournment to give his committee the time to consider more propositions that are being prepared for introduction by the three groups. Tomorrow the conference will be flooded with propositions. Everyone of the three has before it many propositions which must be considered before introducing them.

This conference was called and the delegates assembled on very short notice said Chadbourne, consequently no one knows exactly what he wants to propose.

After adjournment this morning the delegates remained in the hall for half an hour to get acquainted. Resolutions cannot be introduced until after every group from which they originate have voted on them. Chas. Barrett distributed in the hall copies of a document which was a preamble to resolutions requesting the President to appoint a commission to formulate a national agricultural policy.

This provided for fuller recognition of the farmers and protested against the fact that only three farmer delegates were included in the conference. Barrett declared "the farmers had not been dealt with in a fair, open manner." The government's attitude toward them he charged has been "that of an irate parent toward a naughty irresponsible boy" but he said the farmers were waking up. He realized he has not had fair dealings. He denounced the assertions that farmers are responsible for high prices. Barrett's statement said that they would not permit labor and capital to get together for any scheme to reduce the cost of living for which the "farmer would pay the bill."

Organized labor in the conference finished framing its program. It was approved by the group of labor delegates. Samuel Gompers, chairman of the group, is under orders to present any demand to the conference, he deems fit. One or more of the demands may be presented tomorrow. Labor delegates referred to their program as conservative, which introduced only those principles for which organized labor has hoped for years. Profit sharing and a forty-four hour week was not introduced, it was explained.

Whether the question of closed shops will be presented is regarded as uncertain. The labor group proposed also a demand for the recognition by all employers of unions seeking to negotiate with the employer.

## DELIVERY OF BONUS BLANKS STARTED

Rush Expected, as Payments Are to Be in Order of Receipts of Applications

St. Paul, Oct. 7.—Blanks on which Minnesota servicemen and nurses are to apply for the state cash bonus of \$15 a month for service in the world war are to be sent out in large supplies today from the bonus administrative offices at the Capitol.

The first delivery of 20,000 sets of duplicate application forms was made late yesterday, and more are to be delivered today. Distribution will be rushed, and it is expected that before the end of the week the application sets may be obtained from American Legion officers and district court clerks in every county in the state.

Inasmuch as the bonus payments are to be made in the order in which the applications reach the bonus offices—barring delays for investigations or for other reasons—a big rush of filings is expected to follow.

Each set is made up of two application forms, which must be filed in duplicate, a blank for a certified copy of the applicant's discharge, which must be verified before an officer authorized to administer oaths, and another blank to be filled out for the Minnesota War Records commission. Adjutant General Rhinow, State Treasurer Henry Rines and State Auditor Press, comprising the bonus board, left St. Paul last night for Chicago to confer with officials of bond houses there and arrange for sales of the certificates of indebtedness to raise bonus funds.

The board plans to offer a block of \$500,000 certificates at the earliest possible date, and the expedition with which the sale is affected and the proceeds are made available will determine when actual cash payments to bonus claimants will start.

The board members expect to return Thursday and may then be able to predict the time that will be required to market the first issue of certificates and begin payment.

## CONVENTION CITIES TO BE NAMED SOON

NATIONAL COMMITTEES OF THE BIG PARTIES WILL SELECT THEM IN DECEMBER.

CHICAGO AND ST. LOUIS LEAD

Many Others Will Submit Their Claims—Gatherings to Nominate Next President Probably Will Be Early in June.

By JAMES P. HORNADAY.

Washington.—The national committees of the two political parties are already beginning to prepare for next year's presidential campaign. The first actual step by either of the old party committees will be to select a convention city. Each committee will do this at a meeting which will be held here about the middle of December. Having decided where the convention will be held, as well as the convention date, each committee will issue the formal call for the convention. Custom dictates that the party that is not represented by the occupant of the White House shall hold its convention first, and unless this custom shall be disregarded the Republicans will meet at least one week, and probably two weeks, in advance of the Democrats.

In 1916 the conventions were held about two weeks earlier than ever before, the Republicans meeting on June 9 at Chicago and the Democrats on June 14 at St. Louis, and the representatives of the parties seem to like the idea of getting the nominations out of the way early in June. So it is generally assumed members of the national committees say, that the conventions next year will be over by the middle of June, or soon thereafter. Many cities already have let it be known that they would like to entertain one or both of the old party conventions. Chicago and St. Louis have come to be known as favorite political convention cities, and the politicians express the view that it is altogether likely that one of these cities and possibly both of them will be favored next year.

Among the cities from which the party chairmen have received invitations which they will submit to the December meetings are Cleveland, Indianapolis, Minneapolis, Kansas City and Denver. At least two Pacific coast cities, Los Angeles and Portland, have indicated that they will in due time let it be known that they also will extend invitations.

Chosen City Must Pay the Bill.

The city that takes care of a national political convention must obligate itself to pay the bills of the convention. This rule has been followed for a good while. This does not mean that the city becomes responsible for the hotel bills or other expenses of the delegates, but it does mean that it must provide the hall free of cost and take care of the legitimate expenses of the national committee. The situation is usually met by the city turning over to the national committee a cash sum sufficient to cover the legitimate convention expenses.

Next year's conventions will contain the same number of delegates that sat in the conventions in 1916. The number of delegates from each state is based on the number of senators and representatives the state has in congress, and although a new census will be taken in January next year, the reapportionment for congressional purposes will not be made in time to affect the political conventions. Two fundamental questions have been pending in each of the old party organizations for a good many years. In the Republican organization this question is whether the representation from the southern states shall be reduced. Every time the question has come to

DR. ANTONIO D'ALMEIDA

Dr. Antonio Jose d'Almeida, the newly elected president of Portugal. He succeeds Sidonia Pais, who was shot at a station in Lisbon.

a vote it has been decided in the negative, but there is still a good deal of agitation in favor of allowing those states in which it is alleged that the colored man is not allowed to vote, delegates on the basis of the number of Republican votes cast rather than on the basis of the representation in congress.

May Abandon Two-Thirds Rule.

In the Democratic organization the question is whether the rule which has so long prevailed, that it shall require a two-thirds vote of the convention to nominate, shall be abrogated. At a meeting of the Democratic national committee in Atlantic City recently a resolution to set aside this rule was filed with the committee and notice given that the resolution would be called up at the December meeting of the committee. In support of this resolution which, if adopted, would, of course, allow a majority of the delegates to nominate, it is asserted the two-thirds rule was adopted as a companion to the rule which has long prevailed in Democratic conventions, that state delegations should always vote as a unit. It is argued by those members of the Democratic committee who would set aside the two-thirds rule that the unit rule has been abrogated by the legislation of the various states under which delegates are elected by direct primary. According to the view set forth by these representatives of the party who believe the two-thirds rule should go, it is impossible now for a state delegation that has been selected by the direct primary method to vote as a unit without disregarding such instructions as the people may have given.

Pleased at Her Appearance.

Jane was busy entertaining herself by looking at the photograph album. Soon she came across a picture of herself taken when she was a tiny, bald-headed baby, and in all earnestness she said: "What a tundra! home, baby!"

## QUICK RELIEF FROM CONSTIPATION

## LYCEUM COURSE OPENS TONIGHT

General Extension Division of the  
University of Minnesota Pre-  
sents Attractive Feature

### MINNEAPOLIS OPERATIC CO.

Short Review of Some of Porminent  
Singers and Musicians of the  
Organization

Much interest centers in the appearance tonight of the Minneapolis Operatic Company at Gardner Auditorium, the first number of the University Extension Lyceum Course, which Brainerd has been fortunate to secure for this season. The public is according Rev. Eloy G. Carlson, the local manager, every assistance possible.

The piano this evening will be furnished by the Folsom Music Company and the stage furnishings by D. M. Clark & Co. The members of the company arrived this afternoon at 2:10 o'clock and were met at the train by a local committee. They expressed themselves as much pleased with the opportunity to meet Brainerd music lovers and give their entertainment here.

Mrs. W. H. Gemmell has very kindly accepted the invitation to make the announcements this evening. Frank G. Hall will assist at the door in taking tickets.

Those having season tickets are urged to bring them this evening. Single admission tickets may be secured at the door.

Miss Lael Johnson is the possessor of that rarest of vocal gifts—a genuine contralto voice. Not only is her voice a real contralto, but it is a voice of surprising range, richness and volume, which enables her to compass with ease the requirements of the great numbers written for the low voice which the average singer hesitates to attempt.

Gurney Mattox, violinist, studied with Otto Meyer, the leading Swedish exponent in America, and is a fine exemplar of the great Bohemian master's methods. Mr. Mattox was soloist with the Philadelphia Symphony orchestra and is now in the first violin section of the Minneapolis Symphony. His playing shows a finished technique, great intellectual grasp and fine poetic feeling. He is a master of his instrument.

Clarence Scheibe is generally recognized as one of the best basses in the west. His voice is deep and rich, and his musicianship is masterly. He is soloist at Plymouth Congregational church, Minneapolis, and has been eminently successful in concert, oratorio, lyceum and Chautauqua, in all of which he has appeared extensively.

Miss Ebba Norman, prima donna soprano, has a voice of remarkable purity, range and power, with a thrilling dramatic quality which

makes her singing exceptionally impressive. She studied under Beatrice L. Thurston, and has coached under Oscar Saenger, of New York, the foremost teacher of opera in the country. Miss Norman has been soprano soloist in the First Presbyterian church, Minneapolis, for several years, and has had extensive concert experience. She recently appeared in recital in Chicago, where she created a profound impression, and won a high place in the regard of the music critics of that center. Miss Norman is equally effective in opera, folk music or the lighter forms of songs.

### Vanek-Wystrach

Miss Margaret Vanek, daughter of Mrs. Mary Vanek residing four miles east of Brainerd, was married to John Wystrach of St. Cloud at St. Francis Catholic church at 8:30 o'clock in the morning of last Tuesday, Sept. 30. Rev. Father J. J. O'Mahoney officiating in the presence of a large number of friends and relatives.

The bride wore cream silk and a bridal veil and carried a bouquet of bridal roses. The bridesmaid was Miss Marie Graber, who was gowned in white silk trimmed with pink.

A wedding dinner was served at the home of the bride. The happy couple have gone to St. Cloud where they will make their home and where Mr. Wystrach is in business as a plumber.

Their many friends in both cities unite in extending best wishes for their continued happiness and prosperity.

### Bethany Ladies Aid

Mrs. Elmer L. Dahl, 302 1st avenue Northeast will entertain the Ladies Aid society of the Swedish Bethany church on Thursday afternoon. A cordial invitation is extended all.

### Norwegian-Danish Aid

The Norwegian-Danish ladies aid will meet Thursday afternoon in the church parlor. Mrs. A. Sheffo will entertain.

### NORSE VOTE ON DRY LAW

Election on Prohibition is Being Held for Country

Christiana, Oct. 7.—A plebiscite to decide on national prohibition has begun in Norway throughout the entire country. During the war, measures limiting the manufacture of beer, spirits and other alcoholic drinks on account of shortage of grains, have been in effect.

### Forerunners of Sickness

Indigestion and constipation are the forerunners of half the ills of mankind. When food is properly digested, you are free from biliousness, gas, bloating, sick headache, sour stomach, coated tongue. Foley Cathartic Tablets cleanse the bowels, sweeten the stomach and invigorate the liver. H. P. Dunn. mwf

## CHURCH FAIR AT ST. MATHIAS

To be Given Thursday, October 16.  
Under Auspices of St. Mathias  
Catholic Church

### REV. JOHN CREAM IS PASTOR

Many Brainerd People Will Motor  
Out. Fine Supper Served from  
5 to 10 P. M.

The St. Mathias Catholic church of which Rev. Father John Cream is pastor will be the scene of a big church fair occurring on Thursday afternoon and evening, October 16, eclipsing anything ever held before in the parish.

"This fair," says Father Cream, "is not like other fairs," and in substantiation he quotes a half dozen reasons.

Each will surely get his money's worth. All will be treated royally and no one will be "held up." A dandy chicken supper will be served any time from 5 to 10 p. m. Everybody will have something to take home, even if it be only a dozen chickens, geese or a pig, but 'tis something any way.

Many Brainerd people will form auto parties and attend the fair and supper. Supper tickets are 75c and each includes a chance on a pig.

### BRAINERD'S ODDEST STORIES OF TODAY

How many people have stumbled when they tried to pronounce the name of Chicago's pitcher, Cicotte. Rev. Frederick Errington, who used to live in Chicago and went to the games occasionally, says the Chicago pronunciation is "Sigh-cot", with accent on the "Sigh". Some have mangled the pitcher's name by sounding it "Sigh-cot-tie", and again "See-cot" and anon as "Sigh-cot-tay", with the accent on the "tay".

It is now a question as to whether Hugh Fullerton's annual dope is to emerge triumphant or fall by the wayside. Any way, the Sox are hitting away below standard.

A Brainerd girl exhibited some Yakima apples in the Dispatch window, some a friend had sent her. So interested was the Dispatch force, newsboys and all visitors in the exhibit, that it required hard work to keep the apples from disintegrating into cores.

### STRAIN TOO GREAT

Hundreds of Brainerd Readers Find  
Daily Toil a Burden

The hustle and worry of business men.

The hard work and stooping of workmen.

The woman's household cares, often weaken the kidneys. Backache, headache, dizziness, kidney troubles, urinary troubles—frequently follow.

A Brainerd citizen tells you what to do.

Mrs. W. H. Everest, 807 S. Seventh St., says: "I used to have terrible pains in my back, it fairly made me sick. After any exertion, my back would be sore and lame and it was a hard matter to get through with my housework. My kidneys didn't act as they should and as Doan's Kidney Pills had been used in the family with good results, I started to take them. It was no time before I got relief and I always get the same good results when I use Doan's Kidney Pills."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Everest had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.—Adv.

### Precious Stones.

Generally speaking, the diamond, which scratches every other stone and can itself be scratched by none, is the most valuable of all. The sapphire is actually the same mineral as the ruby and corundum, transparent, of a blue color. Among the ancients, and even now in the east, the dark blue variety is termed the male, the lighter blue the female stone. The king of Burma's specimen of 951 carats is possibly the most valuable of the sapphires, although the one owned by the duke of Devonshire, of 100 carats, is highly esteemed by connoisseurs for its beauty and purity.

### Easier Now Than Later

It is easier to break up a cold or check a cough now than it will be later. Persistent coughs that "hang on" all winter pave the way for serious throat and lung diseases. L. W. Day, 65 Campbell Av., E. Detroit, Mich. writes: "Foley Honey and Tar relieves one of bronchitis very quickly." H. P. Dunn. mwf

## TRANSPORTATION CO. NOW HAS 6 CARS

Cuyuna Range Company has Leased  
Larson Barn in Crosby for  
Its Headquarters

### "HARD TIMES" PARTY GIVEN

Miss Anna Severance Entertained a  
Number of Friends—Crosby Fire  
Department Notes

Crosby, Minn., Oct. 6.—The Cuyuna Transportation Co. has leased the Larson barn for headquarters and is now operating nine cars of which six are large busses.

Axel Dahl of Virginia was in Crosby the first of the week on business.

Miss Anna Severance entertained Thursday evening of last week at a "hard times" party at the home of her parents, corner of First avenue west and Second street. About thirty were present.

D. J. Severance returned Monday from his trip to Oregon on business connected with a probate case.

Mr. and Mrs. T. B. Voog left this week for Nevada where the former has a more lucrative position with a mining company.

The Crosby volunteer fire department Wednesday evening initiated two new members. The full complement of 35 is now on the roster and no new members will be taken in.

Mr. and Mrs. Roy Shugren have moved into 128 East Second street north, formerly occupied by Mr. and Mrs. A. G. Jewell, who have moved into the Honeymoon Row house just vacated by T. B. Voog.

The Mahanoma Mining company, operating the Mahanoma open pit, purchased the Jahr house from the Mahlum Lumber company and it is being occupied by General Superintendent Scallan of the company.

Mr. and Mrs. Harry Belmont, who have been living at Crosby Beach, have leased the Roman residence near the high school.

Mrs. E. Krueger of Glenwood is visiting at the home of Edward Krueger.

E. Hazlett of Wadena was here on Thursday attending to his duties as auditor of the Dower Lumber company.

Capt. and Mrs. Cameron announce the birth of a son at the Miners' hospital Monday night.

Mrs. B. A. Smith attended the meeting of the state federation of women at Little Falls last week as a delegate of the Mothers' club.

C. A. Lewis, village marshal, went to Duluth Wednesday to serve papers in a suit.

Attorney and Mrs. W. B. Cook went to Minneapolis the first of the week and visited a few days.

### NEGRO GETS 30 YEARS

Was Accused of Attack on White  
Woman Sunday

Carrolltown, Mo., Oct. 7.—William Wardlow, a Negro, was sentenced to 30 years in the state penitentiary here yesterday following an alleged attack he is said to have made upon a white woman passenger on a train on which he was porter. The Negro denied the charge, but pleaded guilty to another charge and was sentenced and hurried away to the penitentiary by the authorities as a precautionary measure.

### 80 ENTER U. S. AIR RACE

Trans-continental Flight is Due to  
Begin Tomorrow

Minneapolis, N. Y., Oct. 7.—Major General Thomas H. Barry will act as the official starter of the trans-continental army air race, which starts from here Wednesday morning, it was announced yesterday.

An incomplete entry list published yesterday indicated that eighty machines would start; sixty-four from Minneapolis and sixteen from San Francisco.

### She Never Told.

All the preparations were made for a large wedding, and a large crowd of friends was witnessing the ceremony at the bride's home. As the minister neared the words, "I pronounce thee man and wife," the bride turned deathly pale and rushed from the room. Much to the dismay as well as the humiliation of the bridegroom and relatives, she could not be persuaded to return. The guests departed, and to this day the bride has never told the reason for her apparently strange action.

### They Get Action at Once

Foley Kidney Pills invigorate, strengthen and heal inactive, weak and diseased kidneys and bladder. Mrs. O. J. Ellis, 595 8th Av., Sioux Falls, S. D., writes: "I suffered with kidney trouble; used to have severe miserable and all pains across my back and felt miserable and all tired out, but after taking Foley Kidney Pills I am well." H. P. Dunn. mwf

### FIND MANY USES FOR PEAT

Wartorn Industry Gives Promise of  
Great Development in the  
Years to Come.

The output of peat in the United States last year far exceeded that of any preceding year and the general increase, which was stimulated by the war, was shared by practically all branches of the industry. Though extensively used as fuel in Europe and widely known in the United States as a potential source of heat and power, peat has been unable to compete with coal and many peat operators have directed their attention to the utilization of peat in agriculture with gratifying results.

Peat fertilizer was first marketed in commercial quantities in 1908, and stock food peat in 1912, and though there is still some prejudice against its use the agricultural branch of the industry has been successful and the quantity of fertilizer and stock food peat annually produced is increasing.

Large quantities of these products were made last year, but the most striking development was the production of more peat in the New England States than has been manufactured in the entire United States in all preceding years. Almost equally striking was the widespread interest manifested in peat resources which had been generally regarded as of doubtful value.

Large quantities of peat or sphagnum moss were produced and utilized for stable litter, packing material, and surgical dressing, and several hundred thousand acres of peat soils were used for the growth of crops. The peat litter was produced by the owners of small bogs for their own use, but the packing material was sold to florists for \$25 a ton. According to J. W. Hooton of the Red Cross more than half a million peat pads were prepared in this country for that organization. Most of the moss was gathered by volunteers from bogs in Washington, Oregon and Maine, and the pads were used in military hospitals at home and abroad.

High Prices and Low Diet.  
Doctor—"It is a little difficult to diagnose your case. Perhaps you have been eating too much." Patient—"Impossible. This hotel is run on the European plan."

know how. It is only an expert  
mechanic who possesses the  
know how; and it is only expert  
mechanics who are employed by  
us to work on your car.

### MOTOR INN

224 S. 4th St. C. A. Stadlbauer, Prop.

## LOCOMOTIVE Electric Washer

The New Locomotive Electric Washer obtains a  
most vigorous water action without any mechanism  
inside the boiler.

An entirely new method in securing the necessary  
water action has been effected through the reciprocating  
movement of the boiler, which is so constructed that every drop of water is in constant action,  
similar to the steam locomotive and for that reason is  
called the LOCOMOTIVE WASHER.

This action is obtained by the 1/2 horse power motor quietly  
driving the wash boiler on a horizontal plane, making 120  
six-inch strokes per minute, creating a most powerful action  
as shown in the illustration. No need for an extra wash-  
boiler. This machine is equipped with a practical gas heat-  
er, which keeps the water at boiling point.

Mrs. A. M. McQuaig of New York City will be  
here next week to demonstrate the machine.

## 2 CEMENT TENNIS COURTS IN IRONTON

Ironton Village Council is Figuring on Plans for Same—Syverson Garage Fire

## VILLAGE CLERK AT ST. PAUL

Theodore Grimstad Attended Fire Prevention Meeting—Mrs. H. K. Dimmick Birthday Party

Ironton, Minn.—A garage owned by Edward Syverson at the rear of the First National bank was burned Saturday morning.

Glen Smith and Elmer Stevens and lady friends spent Sunday in Walker visiting friends.

Mr. and Mrs. Elmer Briggs and daughter Nora, left Saturday to visit Mrs. Briggs' parents at Long Prairie.

Frank Briggs of Duluth, who attended the funeral of his niece, Rosal Briggs, returned home on Sunday.

Theodore Grimstad village clerk was in St. Paul Thursday attending the fire prevention meeting.

Mr. and Mrs. Louis Sullivan have leased the new house just built by Mr. Prindle.

E. A. Lamb, Sr., who has been visiting here has returned to Minneapolis.

J. E. Blom attended to business in Little Falls Tuesday.

The village council is figuring on building two cement tennis courts next summer.

T. E. Foster, clerk at the Spina hotel, is enjoying a visit in Minneapolis.

Mr. and Mrs. Arbor had as their guests Sunday Mr. and Mrs. Russell of Chevrolet.

Anton Hallgren of Duluth is visiting his sister, Mrs. Carl Heij.

Monday evening several of the friends of Mrs. H. K. Dimmick took possession of her home and helped her celebrate her birthday.

## Taking Philosophical View.

There are always two ways of taking everything. One can make one's self a nuisance by dwelling on discomforts, or one can ignore them and go on in a normal way. Warm weather isn't easy to bear, of course. But as long as we can't possibly lower the temperature by all the complaints in the world, why not resolve that other details of the day shall fill our minds to the exclusion of the heat topic? What an immense quantity of talk we waste on just such things. It's lucky that the number of our words is not limited, else we might find ourselves running short of these we really need to express real thoughts and desires before middle age even looms in the distance.—Exchange.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by P. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

P. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Hall's Family Pills for constipation

## MUCH TO BE DONE AFTER RATIFYING

TREATY OF PEACE WILL CALL FOR GREAT DEAL OF LEGISLATION BY CONGRESS.

## SENATE MAY RETAIN POWER

Appointment of Numerous Representatives on the International Commissions and in League of Nations is Question Not Yet Settled.

By JAMES P. HORNADAY.

Washington.—Ratification of the treaty of peace with Germany will not end the responsibility of congress in connection with the pact. There will still remain the question as to how numerous provisions of the treaty are to be administered. It is reasonably certain that congress, in enacting legislation that will be necessary in order to put into effect many provisions of the treaty so far as the United States is concerned, will see to it that broad powers are retained by the legislative body, or at least by the senate. Assuming that the treaty, with the League of Nations covenant included, will be ratified with certain reservations, it will be necessary for the United States to have representatives on a large number of international tribunals.

The treaty is silent as to how these representatives of the government shall be appointed. Should congress fail to act, the president would appoint in every instance. But congress, so the leaders in the two houses say, has no thought of failing to act. It will provide, through legislation, if present plans are carried out, that all representatives of the United States on the international tribunals shall be nominated by the president and confirmed by the senate.

When the treaty goes into effect there will be opened up an entirely new field of international activity. It is a field that will call for trained men of the best type. Congress will fix the salaries of these men and will, of course, have to appropriate money to meet the expenses of the United States in participating in the numerous new international activities.

## Will Require Many Experts.

There will have to be a mixed arbitral tribunal established between each of the allied and associated powers on the one hand and Germany on the other within three months after the ratification of the treaty. Each of these tribunals is to consist of three members. The United States will, in case the treaty is ratified, appoint one member of the tribunal which is to represent it. Germany will appoint one member, and the two thus appointed will choose the third. There will also have to be created a permanent commission which will advise the council of the League of Nations on military, naval and air questions. It will also be necessary for the United States to name members of more than a score of other commissions that are to deal with problems growing out of the war.

A typical commission is the one provided for to deal with the Saar basin. This commission, it will be recalled, is to consist of five members chosen by the council of the League of Nations and will include one citizen of France, one native inhabitant of the Saar basin, not a citizen of France, and three members belonging to three countries other than France or Germany. In this particular case the treaty does not say specifically that the United States must be represented, but it is taken for granted that it will be. In nearly every other case in which a commission is provided for the United States is mentioned as one of the countries that must be represented.

Congress will also have to deal with the mandates. If, as is generally understood, this government agrees to look after the Armenians, congress will have to say how the government shall go about this. There is also provision in the League of Nations covenant for a permanent commission which is to receive and examine all the annual reports of the mandates provided for under the treaty, and the United States is to be represented on this commission.

## Lower House to Take Part.

The ratification of the treaty is a matter for the senate only, but when it comes to providing by law for the application of the provisions of the treaty the house of representatives will take its share of the responsibility. In view of the fact that the senate has spent so much time on the treaty, it is assumed that congress as a whole will not be able to dispose with promptness of the legislation that must follow ratification. Some of the senators and representatives predict that the whole field will have to be fought over again, so to speak. It is evident that much difference of opinion with respect to the character of the enabling legislation to be enacted will develop.

There is still some question as to whether congress is entitled to any voice in selecting the original members of the League of Nations representing the United States. The treaty provides that the original members of the league "shall be the signatories to this covenant." The United States is regarded as the signatory and President Wilson has let it be known that it is his thought that the three charter members of the league from the United States shall be chosen from this government's delegates to the peace conference.

## FIFTY-FOUR CASES TO SUPREME COURT

Dry Act Test to Be Argued on November 26—Dunn Case Listed

St. Paul, Oct. 7.—Arguments in the cases testing the validity of the Minnesota prohibition enforcement law will be heard by the State Supreme court November 26. The November calendar of the court issued late yesterday by Herman Mueller, clerk. Fifty-four cases are to be heard.

Judge Charles S. Jolley of the Hennepin county district court certified questions on which the prohibition enforcement statute will be tested. In one case Eugene A. Hosmer is accused of manufacturing an intoxicant and in the other Andrew Brothers is charged with transporting liquor in violation of the law.

## Speedway Up Again

Failure of the Twin City Motor Speedway is echoed in an appeal to be argued November 13. It involves the \$10,000 claim of Paust & Cooke, which was allowed in full in the Ramsey county district court.

Arguments will be heard November 25 on the appeal of Herman Liss, formerly a deputy clerk of the Minneapolis municipal court from his conviction on charge of bribing a witness in an arson prosecution in Minneapolis and denial of his motion for a new trial.

Appeals by Florence E. Early and M. Hellner seeking through mandamus proceedings to compel Albert Wunderlich, St. Paul commissioner of education, to reinstate them as public school teachers, will be heard November 6. Both teachers appealed from the order of the Ramsey county district court.

## Dunn Appeal Listed

The appeal of Frank J. Dunn, serving a life term in the state prison for the murder of his wife, Alice M. Dunn, from a judgment awarded Daniel W. Lawler, St. Paul, for attorney's fees claimed under the contract to defend Dunn against the murder charge. It will be heard November 11.

## JAMES S. ALEXANDER

New photograph of James S. Alexander, president of the National Bank of Commerce of New York. He is a member of a committee recently formed through the suggestion of Henry P. Davidson, of which John P. Morgan is chairman, and is advocating the formation of a gigantic pool to supply the needs of Europe on a credit basis. Mr. Alexander believes he has devised a practical and workable plan.

## FUNERAL BOMB KILLS 10

Twenty-eight Mourners in Moscow Also Suffer Injuries

Helsingfors, Oct. 7.—Ten persons were killed and twenty-eight others seriously wounded by the throwing of a bomb into a funeral procession in Moscow recently, according to advices from that city received here. Many other persons were slightly injured.

The dispatch states that the bomb of the high explosive type was thrown by an unknown man "during the funeral of the victims of the recent bomb outrage in the Kremlin."

No previous reports of a bomb outrage in the Kremlin have been received in this country.

## How Lang Learned Reading.

Andrew Lang—the best prose writer of his time, according to Mr. Thomas Seccombe—took to the printed page well as instinctively as a duckling takes to water. "About the age of four," he relates, "I learned to read by a simple process. I had heard the elegy of 'Cock Robin' until I knew it by rote, and I picked out the letters and words which compose that classic till I could read it for myself. . . . A nursery legend tells that as a child I used to arrange six open books on six chairs, and go from one to the other perusing them by turns. No doubt this was what people call 'desultory reading,' but I did not hear the criticism till later, and then too often for my comfort."

## AMUSEMENTS

## At the Best Today

Every girl stenographer and every employer of girls in business offices will be especially interested in the plot of "The Virtuous Thief," the Paramount-Ince photoplay in which Enid Bennett will appear at the Best theatre today.

Miss Bennett, who has won nation-wide reputation for herself by her artistry and charm plays the part of a girl who becomes a stenographer in the office of a Wall Street broker in order to atone for the guilt of a weak brother who has stolen money from her employer. The broker proves to be a type of business man that is, fortunately, extremely rare in the financial district—a rascal. Miss Bennett finds herself the central figure in a tangled plot that attracts toward her the finger of criminal accusation. How she is lured into a dastardly trap by her designing employer, who plays upon her intense devotion to her brother, and escapes in a miraculous way makes up the dramatic story.

## At the Best Friday

Charles Ray insists on realism in the scenes of his pictures and resorts frequently to strange and surprising methods to get them. An instance will be noticed by those who see the latest Thomas H. Ince picture in which he is starred, "Bill Henry." It comes as a Paramount offering to the Best theatre Friday.

In this Mr. Ray plays the part of a country youth who gets out as an agent for an electrical vibrator. In one scene he is supposed to be demonstrating his device to a rheumatic old man, who jumps and howls when the vibration is turned on. The rehearsals were all calm enough, but Mr. Ray didn't quite approve the expressions of his supposed to be in action, so he asked Director Jerry Storm to give him a rest until after lunch.

When they next started on the scene the star said he was ready. The camera started grinding and Bert Woodruff, who was paying the part of the old man registered wonderful surprise and an expression of pain and fright. When the director called "Cut" to the camera man and the scene was ended, Bert Woodruff turned to the popular star and exclaimed, "Confound you, you loaded that blamed thing with real electricity."

Brainerd, Minnesota

FLIES FROM MILL  
CITY TO BRAINERD

Lieut. Walter Bullock, Who Made First Flight of Kind to Brainerd Here Several Days

ALIGHTED ON BRITTON FIELD

Lieut. Bullock and G. A. Knowles Now Associated in an Aeroplane Company of Minneapolis

Flying leisurely and at high altitude from Minneapolis to Brainerd, Lieutenant Walter Bullock and G. A. Knowles of the Mill City made the trip without incident in 1 hour 35 minutes and after circling about Brainerd Tuesday afternoon alighted at the Britton field on the Oak street road.

The Curtis J. N. 4 plane is used and is a sturdy machine giving the best of service. This morning Lieut. Bullock and Mr. Knowles went to Deerwood where they will examine and make a flight in the hydroplane which H. J. Ernster, Deerwood banker, purchased several months ago.

The aeroplane will make Brainerd its headquarters Wednesday and Thursday, and quite a number of passengers have signified their intention of taking a ride at the usual rates.

Thursday from noon to 1 o'clock an exhibition of fancy flying will be given in Brainerd. That hour was selected in order to let shop people and school children witness it in company with the rest of Brainerd.

The aeroplane work is rapidly being reduced to a business basis. The machines are handled by a company in which Lieut. Bullock and Mr. Knowles are associated and known as the Ashley Aeroplane Corporation. The company makes flights, has on hand a number of two-seaters, etc., and the agency for the Ace aeroplane, a single seater which sells at \$2500. The Ace has a four cylinder engine which consumes 3 1/2 gallons of gas an hour and is a wonderfully safe machine with small wing spread, being able to make a landing flying at 25 miles an hour and able to drop safely into an ordinary country road. So many orders have been received for the Ace style that the factory is behind in its output.

Secretary Knowles said his company gave the services of two aeroplanes to hunt down the murderous bandits at Elk River. All day the machines circled over cornfields, river and woods searching for the gang which had murdered Deputy Sheriff Bliff and wounded another man.

About Wednesday noon the aeroplane removed to a new flying field, near the 13th street cement road and S. E. Pine street.

ROLL OF HONOR

Axel Saunders who enlisted in the navy on April 12, 1917, visited his relatives for a few days last week. He has made fourteen trips across to France and was on the San Diego when it was sunk, but was one of the lucky ones to be saved. His is a brother of Miss Signe Saunders, the Salvation Army lassie who just recently arrived from overseas service, and he also has two brothers that served in the navy during the war.

BOYS CLUB GIVES  
PROGRAM THURSDAY

Boys Club of Swedish Bethany Sunday School has Prepared a Fine Program of Music,

NEW LIGHT PLACED IN CHURCH

The Boys are Desirous of Raising Funds So as to Purchase One More Electric Light

The Boys Club of the Swedish Bethany Sunday school will give another of their interesting programs on Thursday evening, Oct. 9, at 8 o'clock at the church, corner of Ninth and Maple streets South. The boys and their teacher, Oscar Swanson, have prepared a very interesting program of music and recitations.

The boys have placed a new electric light in the church, being of the semi-indirect style, and hope to get enough in the offering to be taken at the program to be able to place another light of the same kind over the platform to replace the smaller ones. The new lights were greatly needed in the church and will be appreciated by the congregation and friends.

The boys expect to have the church filled with an appreciative audience and extend a hearty welcome to all. The following is the program for the evening:

Opening Exercises	
Song—Congregation, No. 295	
Prayer	
1. Recitation	Virgil Quarnstrom
2. Violin Solo	Lester Bredenberg
3. Vocal Duet	Esther Fogelstrom and John Bye

9. Vocal Duet	Rev. and Mrs. Fallquist
10. Piano Solo	Kent Whitlock
11. Vocal Solo	Irma Haake
12. Recitation	Edwin Swanson
13. Violin Solo	Lester Bredenberg
14. Vocal Quartett	Mrs. Fallquist, Miss Fogelstrom Rev. Fallquist, Melville Bredenberg
15. Recitation	Edwin Erickson
16. Song	Boys Club
Closing Exercises	
A Word to the Boys by Rev. Fallquist	
Offering	
Song—Congregation, No. 139	
Benediction	

American Legion

How did the American Legion come into existence? The first caucus of the Legion was held in Paris, March 15 and was attended by 1000 delegates representing each combat division and each section of the S. O. S. The delegates consisted of 40 per cent from the commissioned ranks and 60 per cent from the enlisted personnel. It merely laid the groundwork for an organization, recommending that it be called the American Legion, and designated a joint committee of men who came from the A. E. F. and men who had not served on the other side, which was to arrange for a further caucus at a later date. The caucus assembled at St. Louis, May 8-10, was the result. It was attended by about 1,200 men representing every state and territory in the Union. The basis of representation was two delegates for each member of the

1ST "VICTORY DANCE"  
GIVEN BY SOLDIERS

World War Veterans to Commemorate the "Victory Day" Over Germans on November 11

AT GARDNER AUDITORIUM

Blue Ribbon Orchestra will Play—Tickets are \$1—Large Crowd is Expected

Brainerd post of World War Veterans will commemorate "Victory Day" by giving a dance at Gardner auditorium on Tuesday, November 11. In world war history November 11 marked the day the Germans signed up on the dotted line and the gun fire ceased, although everybody kept peppering at the Germans until the last minute of the eleventh hour of the eleventh day of the eleventh month of the year had arrived in 1918.

The Blue Ribbon orchestra will play for the soldiers and Gardner auditorium will be the scene of the ball. Committees of the soldiers are at work and the ticket sale is expected to be a large one.

Ald's Hunter's Aim.  
To insure a hunter a steady aim an inventor has patented an arm rest, fastened to the body with a waist belt.

About Our Shoe Department  
An Announcement

We made arrangements which, had we been able to have carried them out, would have permitted us to announce a full showing of shoes two months ago. But, manufacturers have been unable to make deliveries and we are just now able to announce a fairly complete showing of women's shoes. Our children's shoes have been in transit for over a month and we may be able to announce these any day.

About the qualities: We shall offer qualities which will merit your full confidence. The same assurance of complete satisfaction which characterizes our every department will be extended to this one. If you purchase a pair of shoes and they do not prove satisfactory in every respect we shall thank you if you will give us the opportunity to make them satisfactory. We trust that we shall have the pleasure of your early visit to this new department of our store.

H. F. Michael Co.

THRIFT CAMPAIGN  
WELL UNDER WAY

Local Banks Sell New \$1,000 Treasury Certificates, Orders Taken Amount to \$5,000

BEAR 4-3/8 PCT. INTEREST

Are Free from State and Federal Taxes and Will Prove Popular as an Investment

On October 6 the newly authorized \$100 and \$1,000 treasury certificates were placed on sale and orders were received by banks in this county. These certificates bear interest amounting to 4-3/8 per cent and are free from state and federal taxes. They are proving popular as an investment to say nothing of the patriotic angle of inculcating thrift by means of their purchase.

The First National bank of Brainerd reported sales amounting to \$2,000. The Citizens State bank of Brainerd sales amounted to \$3,000. Other banks in the county also had numerous sales. The Brainerd purchases were all for \$1,000 bonds.

These certificates can be secured now, October 6 being the opening day. In St. Cloud and Stearns county their drive for the sale of the certificates has been set for October 22.

Rivalry between the counties of the Ninth district is to be called into play in an effort to see which can sell the greatest number of certificates between October 1 and January 1. To this end a number of prizes will be offered, including a bronze memorial tablet, a 100 foot steel flag pole and a road-grading outfit. St. Cloud will be asked to help by presenting a granite monument as one of the prizes.

A \$100 certificate purchased this month costs \$34.20.

RETURNS FROM WAR

Dr. D. E. Nelson Who Saw Much Service, Now Associated with Dr. Joseph Nicholson

Dr. D. E. Nelson, who saw much service in the American army in his profession, has returned to Brainerd and is again associated with Dr. Joseph Nicholson, with offices at 712 Laurel street.

When a Child has Croup

Thousands of mothers say Foley's Holey and Tar Compound is the best remedy they know for croup, coughs and colds. It cuts the thick, choking mucus, clears away the phlegm, opens air passages and eases hoarseness. The gasping, strangling fight for breath gives way to quiet breathing and peaceful sleep. H. P. Dunn.

DISPATCH ADS BRING RESULTS

ARMY GOODS SLOW

Supplies Sold Through Postoffice August 20 and 21, Not Yet Arrived Here

Brainerd on August 20 and 21 ordered some \$600 worth of army war food supplies at the postoffice here and not a can or pound of stuff has been received to date. A circular letter weeks after the order was sent stated the department was flooded with orders.

It is noticed that Minneapolis and Superior, Wis., postoffices got a few pounds of supplies, and Brainerd hopes it may be on the receiving list soon. The sale of the goods was a success, but the shipment now delayed over a month and a half is not much of a credit. In some cases the articles offered at government sale are now quoted at lower prices in a local store and include army bacon and canned baked beans.

Protection Given to Merchants in Small Towns

A solution for the apprehension of thieves and the return of stolen merchandise from merchants in small towns that has been prevalent recently has been made by the Gale National Detective Bureau, 405 Exchange Bank Building, St. Paul, Minn.

The solution is a simple device which will assist in identifying the stolen property and will lead to an absolute clue to the apprehension of the thieves.

For several years past, thieves and robbers have been preying on small towns, looting them of thousands of dollars worth of merchandise.

Some system must be inaugurated to apprehend these thieves. Mr. Gale studied deeply and evolved a system that will go far way in minimizing thievery and recovering stolen property.

Merchants interested in this new system can learn it in full detail by writing or calling the Gale National Detective Bureau, 405 Exchange Bank Building, St. Paul, Minn. It

Woman Crushed to Death

St. Paul, Oct. 7.—Mrs. Lora B. Stilkey, 2722 Third avenue south, Minneapolis, was crushed to death late yesterday when she was caught between a heavy automobile truck and the warehouse of the Boyd Transfer and Storage company, Lake street and Fourth avenue south.

According to police, Mrs. Stilkey was walking in the alley adjoining the warehouse when a motor truck driven by E. S. Johnson, 1417 Second street south, was backing in. Mrs. Stilkey became confused, police reports indicate, and stepped close to the building as the machine came toward her. Mrs. Stilkey was a widow.

Johnson reported the accident to the police and was released later.

## When Are You Twenty-One?

Blackstone says: "Full age in male or female is twenty-one years, which age is completed on the day preceding the anniversary of a person's birth, who, till that time, is an infant and so styled in law." Chief Justice Sharswood held that "If a man is born on the 16th day of February, he is of age to do any legal act on the morning of the 15th of February, though he may not have lived 21 years by nearly 48 hours. The reason assigned is that in law there is no fraction of a day; and if the birth were on the last second of one day and the act on the first second of the preceding day 21 years after, then 21 years would be complete; and in the law it is the same whether a thing is done upon one moment of the day or another." A person is of full age the day before the twenty-first anniversary of his birthday.

Kerr, who Won for Chicago Yesterday

## TACT

By JULIA A. ROBINSON.

Mrs. Wentworth had moved into a new apartment on Lovell avenue. It was in a fashionable part of the city. The apartment was up to date, with all modern improvements—and yet, what was there about it that did not suit Mrs. Wentworth's artistic taste?

"I'm going to have some changes here," she said to her neighbor in the suite below.

"But you don't know Mr. Bunker," retorted the other. "You won't get a thing done, I promise you that; none of us can. I've been trying myself for the past five years to have him do a few little things for me and haven't got a thing yet. He's the most stingy man I know of; won't put out a cent if he can possibly help it."

"Well, we'll see," Mrs. Wentworth replied with her usual hopefulness.

Mr. Bunker was the landlord, owner of a large automobile factory. Mrs. Wentworth thought she did know a little about him for she had been so frightened by his looks when she went to engage the apartment that she had hardly dared speak aloud though she was usually afraid of nothing.

Yet this brave little woman was not daunted by her neighbor's report. She knew just what she wanted. She wanted to make the house what it ought to be and she meant to have it. Very sweetly and humbly Mrs. Wentworth sought Mr. Bunker: "Perhaps you haven't noticed Mr. Bunker," she began with one of her most fascinating smiles, "but the paper is falling off from the living room walls. It must have rained in sometime; and the ceiling is stained and cracked. Don't you really think something ought to be done?"

"Why, yes, yes! Surely!" assented Mr. Bunker hurriedly. "It must be put in order, of course. I meant to have it done before. I'll send a man round to see about it at once. Pick out the paper you want."

Overjoyed, Mrs. Wentworth picked out the prettiest paper she could find and the most expensive.

When Mr. Bunker came around to see the progress of the work pretty Mrs. Wentworth stood in her front hall, with its background of dark green paper—the dreadful kind that fills one with thoughts of sea-sickness and everything gloomy and makes the whole world look dark and dreary.

"Oh, Mr. Bunker!" she cried in a pleading voice, yet with the cheerful spirit that was usual to her, and that made her so attractive, "don't you see how dull this hall is with this dreadful green paper that makes the whole place look dark. How can I fix anything pretty here? How much more

artistic pearl gray would be! It would set off my things and be just lovely."

"Well, go ahead and have it done," he returned with a half grin, as he passed out of the door.

The hall was papered in artistic gray, but that was not the end. After the papering was finished Mrs. Wentworth thought she would like to have the back porch fixed up; it would make such a beautiful place to sit in the morning, if only she could have— Did she dare ask for anything more? Yes, she did; and she got it, and many other things, a little later.

"Go ahead and have it done," Mr. Bunker assented when she told him how much prettier it would look to have the porch finished in gray instead of the dingy red brick. It was done in gray and the ceiling sheathed. She set out her jardiniere of potted plants, her little work table, with her knitting bag and basket. She arranged small tables for afternoon tea, with tiny cups and cut flowers. Then she invited her neighbors.

"Isn't it just lovely!" they cried. "Pearl gray! How did you get it done? I never should have dared to ask for anything so elaborate, or, indeed, for anything," they confessed. "Did Mr. Bunker really do all this for you?"

"Why, yes," she smiled; "I just asked him, and he had it done. He said himself it was much prettier; and he simply adores the paper I had put on the hall and living room walls; and he says he is sure I never could have got along without that hot water heater for the bathroom."

"You got all that!" they exclaimed in astonishment. "How did you ever dare ask?"

"Well, you see, I just asked; and it didn't seem so very hard after I'd once made a beginning. It seemed to come kind of natural after the first."

But she wondered to herself how she had managed to do it, when they all thought it was so hard to get anything out of him. Then one day Mr. Bunker himself enlightened her.

"Do you know how it was you got so much out of me—why I did so much for you?" he asked. "It was because you asked for things kind of gradually and didn't pounce on me for them all at once, as the others do, and demand them as your right and act as if you were going to tear me to pieces if you didn't get them. You went at it easy-like, just as if you expected me to want to do it; and I did, after I had begun. You see, they came along kind of naturally. When I saw how much better the house was looking I made up my mind that you had taste and knew just what was needed to make the place attractive; I thought it would be the best policy to let you go ahead and finish your work and have what you liked. Then, too," he added, with a twinkle in his eye, "you have a way of asking that one can't resist."

# "Nuxated Iron Put Added Power Behind My Punch"

Says Jack Dempsey—Tiger Of The Ring Heavyweight Champion of the World Tells A Secret of the Training Which Helped Get Him Into Such Superb Condition That He Was Able to Whip the Mighty Jess Willard and Prove Himself

Jack Kearns, Manager for Dempsey, Jimmy DeForest, Chief Trainer, and Others Give Opinions—How Nuxated Iron Helps Strengthen the Nerves, Restore Wasted Tissue and Build RED BLOOD, STRENGTH and ENDURANCE.

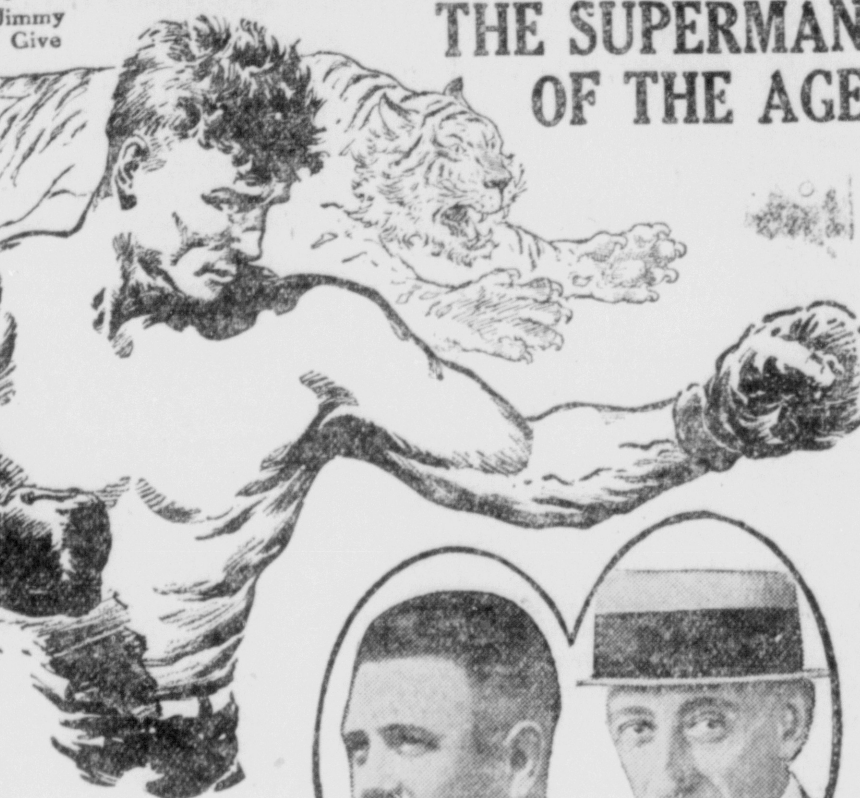

Since his overwhelming victory at Toledo when he wrested the World's Championship title from the Go-fish-like Jess Willard, Jack Dempsey, the modern David and Miracle Man of the Fight World—Jack Kearns, his manager, and Jimmy DeForest, his chief trainer, have been besieged with inquiries as to the methods employed in rounding him up to such superb condition. That Jack Dempsey used Nuxated Iron as a part of the training which produced such marvellous physical development as to make him a veritable human dynamo, should prove conclusively the paramount value he attached to this master strength and blood builder and he explains below why he now recommends it to others.

Just as when a man's life is at stake, physicians seek only the tried and proven treatment, so when the World's Championship hung in the balance, Dempsey's trainers did not stop to experiment with metallic iron preparations—Nux and Iron—or other products of questionable value, but they insisted upon having only genuine Nuxated Iron, which they felt could be absolutely relied upon to help build red blood, power and stamina.

In connection with this feature of his training regarding which Dempsey himself makes a statement below, Jimmy DeForest, the Champion's Chief Trainer, is quoted as saying: "For seven weeks previous to July 4th I was in sole charge of the training and preparing of Jack Dempsey for his fight with Jess Willard. During the training period Dempsey was regularly given by me Nuxated Iron and I believe it contributed to his success."

The importance that the Champion himself places upon the part Nuxated Iron played in winning for him the highest laurels known in the athletic world is clearly shown in the following statement made by Jack Dempsey at his training quarters in Toledo, the scene of the big battle, when he said: "After commencing the use of Nuxated Iron during my training for the big fight with Jess Willard, I soon noticed that I could stand harder strains with less fatigue than before, and I realized that I had found a tonic and blood builder which played an important part in getting me into fine condition. Formerly I had relied solely upon strength-building foods and outdoor exercise to keep my blood rich in red corpuscles, but with the World's Championship at stake, I felt that I should have nothing undone that might help me to

Sold in this city by H. P. Dunn and all good Druggists.

win. I was advised of the great value of Nuxated Iron for building up the blood, strengthening the nerves and aiding in keeping the body fit, and I am firmly convinced that its use has helped to wonderfully increase my stamina and endurance. Nuxated Iron put added power behind my punch and helped me to accomplish what I did at Toledo. From the results in my own case, where the possession of super endurance is necessary, I feel that I am in a position to strongly recommend Nuxated Iron to every man and woman who wants to build greater strength, energy and power."

In connection with the foregoing statement made by Jack Dempsey, Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, said: "In my opinion whoever made the suggestion that Nuxated Iron should play a part in getting Dempsey into condition is to be commended for his foresight. No man without plenty of rich, red blood filled with health-giving and strength-building iron could withstand the terrific onslaughts of a giant like Willard. It should occur to

every thinking person that if a man as physically fit as Dempsey should consider it advisable to take Nuxated Iron, how much more important it is for the average man or woman to see that there is no lack of iron in the blood. To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron.

Manufacturers' Note: Nuxated Iron which has been used by Jack Dempsey and which is prescribed and recommended above by physicians is not a mere remedy but one which is well known to druggists everywhere. Unlike the inferior iron preparations it is easily assimilated and does not irritate the stomach. It is a tonic and builds up the strength. The manufacturers guarantee successful and entire satisfaction to every purchaser or they will refund your money. It is dispensed by all good druggists.
